- **Basic Vehicle Cradle**
- **12-24 V Vehicle Charging**
- **RS232 Interface**
- **USB OTG Connection**

The CRD1065-BAS is a basic vehicle cradle for the MDT1065 rugged tablet. It supports vehicle charging from 12 to 24 V and provides ignition, ground, one RS232 interface and one OTG connection.

It is a practical cradle option for applications that need dependable in-vehicle power and essential wired connectivity without the complexity of a full-featured dock.

Compatible with: Topicon MDT1065, Topicon MDT1080
