- **Sun glare reduction**
- **Improved display readability**
- **All buttons accessible**
- **Vehicle and outdoor use**

The CAP-665-01 is a sunshield cap for the Topicon MDT665. It helps reduce glare from direct sunlight and improves display readability in vehicles or outdoor environments.

In this version, all buttons remain accessible, allowing unrestricted operation of the device while the sunshield is installed.

Ideal for working environments with changing light conditions.

Compatible with: Topicon MDT665, Topicon MDT680
