- **6 charging channels**
- **For MDT1065 batteries**
- **AC 220 V input**
- **60 W maximum power**

The STA-1065-01 is a multi-bay battery charging station for MDT1065 replacement batteries. It supports AC 220 V input at 50/60 Hz with a maximum power of 60 W and delivers DC 4.2 V / 2 A across six charging channels.

It is a practical charging solution for fleet, depot and workshop environments where several spare batteries must be charged efficiently.

Compatible with: Topicon MDT1065, Topicon MDT1080
