- **Vehicle cradle**
- **12-24 V vehicle charging**
- **RS232 interface**
- **USB OTG interface**

The CRD865-BAS is a basic vehicle cradle compatible with MDT865 and MDT880 rugged tablets. It supports vehicle charging with 12 to 24 V, IGN and GND connections, 1x RS232 and 1x OTG.

This is a practical docking option for installations that need core power and connectivity functions without a full interface set.

Compatible with: Topicon MDT880, Topicon MDT865
