mSATA to SATA adapter

Internal DC power connector to Intel® NUC board
 Input voltage: 19V

SATA data cable to HDD/SSD

SATA power cable to HDD/SSD

©akasa

This module allows you connect any Standard SATA device (eg. 2.5" HDD/SSD drive) to the m-SATA slot through a standard SATA cable. Transparent to the operating system and does not require any software drivers.

The adapter for example can be used with Intel NUC mainboards.

Scope of supply:

- mSATA to SATA adapter card
- 3x cables
